

## Precast Concrete Quality Control Manager – Topsham, Maine

**Precast of Maine and Crooker Construction are proud to be a 100% employee-owned company!**

As an Employee Stock Ownership Plan (ESOP) company, our employees are owners and share directly in the success they create. As the company grows, all employees will watch their ownership accounts grow in value too. Apply today and soon you'll start watching your ownership account grow!

Precast of Maine is looking to hire a safety-minded, detail orientated, and experienced individual to be the Quality Control Manager. The selected candidate will be responsible for creating and managing the quality control and assurance systems in all aspects of the design, production, and delivery of precast concrete products for utility and infrastructure construction.

The Quality Control Manager will be responsible for reading and understanding dimensioned scaled drawings, completing required tests on the concrete products, and implementing adjustments based on the test results. The Quality Control Manager is required to regularly communicate and coordinate with sales employees, the Plant Manager, and shop production employees to ensure the highest quality standards are being met for all products being produced.

Responsibilities include; but are not limited to:

- Complete pre-pour and post-pour inspections such as; rebar placement, imbed and bond out locations, and dimensional tolerances.
- Review and continuously improve testing and record tracking methods using existing and customized systems.
- Perform aggregate gradations, percent (%) moisture, and other material properties test.
- Create and implement concrete mix designs.
- Trouble shoot and implement modifications following test results.
- Manage equipment performance and calibrations.
- Communicate with customers, designers, and inspectors including various state and federal agencies such as MDOT.
- Lead employees in quality control best practices training.

### Requirements:

- Previous experience with concrete batching process, equipment, and software.
- Must be able to read and understand dimensioned scaled drawings.
- Must be able to work independently.
- Must have solid computer skills.
- ACI Field Tech Grade 1 (unit weight, air, temp, VSI, spread or slump, cylinders, compressive strength); additional ACI, PCI or NPCA certifications are preferred.

This is a full-time year-round position based in Topsham, Maine.

**Benefits:**

The company is 100% employee owned. All employee-owners have an additional ownership retirement account growing in value each year when more shares are awarded.

Enjoy working with a great crew!

Health, dental, and vision coverage, 401k with company match, paid vacation, paid time off, paid holidays, paid life insurance, boot reimbursement, and more!
