

Crushing Utility Person

Crooker Construction and Precast of Maine are proud to be a 100% employee-owned company! As an Employee Stock Ownership Plan (ESOP) company, our employees are owners and share directly in the success they help create. As the company grows, all employees will watch their ownership accounts grow in value too. Apply today and soon you'll start watching your ownership account grow!

Crooker Construction is looking for a safety-conscious candidate to join our team as a Crushing Utility Person. The position is based in Topsham but may travel to our other pit and quarry locations.

The position will be responsible for performing a variety of labor, maintenance, and operational duties throughout the crushing facility to ensure the safe, efficient, and continuous production of quality aggregate products. Most of the work will be done independently, but there may be times when this position will be required to work as a team to complete larger or more complex repairs and maintenance projects.

Having a CDL is preferred. The positions are full-time, year-round roles. The budget base pay for this position ranges from \$18.00 to \$21.00 and will vary depending on how well an applicant's skills and experience align with the job description.

Duties/Responsibilities

- Assist with the daily operation of crushing, conveying, and stockpiling equipment.
- Perform routine housekeeping throughout the facility, including shoveling, sweeping, cleaning spillage, and maintaining work areas.
- Monitor conveyors, crushers, screens, feeders, and other plant equipment for proper operation and report abnormalities.
- Assist with scheduled and unscheduled maintenance activities, including replacing wear parts, changing screens, belts, rollers, and other plant components.
- Safely operate hand tools, power tools, pressure washers, cutting torches, and other maintenance equipment as authorized.
- Safely operate skid steer, loader, or other equipment.
- Maintain accurate inspection, maintenance, and production records as required.
- Follow production schedules while minimizing downtime and material waste.
- Participate in repairs during scheduled outages and seasonal maintenance projects.
- Ensure MSHA safety and environmental regulation compliance.
- Troubleshooting equipment maintenance problems to properly diagnose components to determine the method and extent of repair necessary.
- Assist with disassembly and reassembly of equipment and parts for repair and maintenance needs.

Requirements

- Must be able to communicate effectively. Frequent contact and communication with others within and outside the company.
